SUMETHING ABOUT COIN EAST. The shortest possible route between the Great West and the East, North and South, is over the St. Louis, Kansas City and Northern Short Line. This road has gained surprising importance by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in improvements of roadway, in relaying their line with best quality of new steel and troa rails, on broad new ties, and by substituting for ordinary cars, new reclining chair coaches, elegantly carpeted and fitted, with dressing rooms with toilet conveniences for Indies, gentlemen and families traveling with children, without any carra charge. This line runs six fast Express trains between the Missouri and Mississippi Rivers, two more than any other road, and connects with all the great through lines East, West North and South. It is remarkably free from accidents by reason of adopting every modern appliance for confert event and another.

THE FASTEST TIME ON RECORD.
